OHIO BANKERS MAY BACK POOL

Action Expected Soon by Cincinnati Bankers After Plan is Presented by Officials

Lexington, Ky., Dec. 30—Officers and members of the finance committee of the Burley Tobacco Growers' Co-operative Association, who returned from Cincinnati last night, are confident Cincinnati bankers would advance a liberal share of money needed to finance the handling of the 1921 crop. James C. Stone, president of the Association, said he is quite confident the bankers will make a part of the loan and Charles Manning, chairman of the finance committee, declared he had no doubt that "we got all we reasonably could expect." The Association now has 113 warehouses.

The attitude of Cincinnati bankers toward the cooperative marketing plan of the Burley Tobacco Growers' Co-operative Association is distinctly sympathetic. President James C. Stone said last night on his return from Cincinnati where he went yesterday morning, accompanied by members of the executive and finance committees of the organization, to present the matter of the financing of the 1921 crop to a meeting of Cincinnati bankers, called at the request of Charles N. Manning, chairman of the finance committee of the burley association.

Mr. Stone and Mr. Manning explained the plan of organization of the association, told of the 112 warehouses turned over to it by the owners and of the nearly 1,000,000 pounds of tobacco controlled by it. Charles A. Hirsch, president of the Fifth Third National Bank of Cincinnati, was the principal spokesman for the bankers. It was decided by the bankers, following the presentation of the association's wishes, to take up the proposition with the clearing house association, so that all the banks would be represented. The tobacco men were told that the bankers would make known their attitude within the next few days.

Besides Chairman Manning, members of the finance committee who went to the Cincinnati meeting were James C. Wilson, Louisville; W. C. Montgomery, Elizabethtown; J. Ed. Bassett, Lexington; and James McInnis, Paris.

ELMER DEATHERAGE TO HAVE LADY DEPUTY

Daughter Will Be Sworn In As Deputy Sheriff—New Officials Go In Monday

When Elmer Deatherage takes office as Sheriff of Madison county on next Monday, January 2, 1922, he will swear in as a deputy perhaps the first woman deputy sheriff Madison county has ever had. She will be his daughter, Miss Mary Louise Deatherage. Mr. Deatherage engaged Mr. John Simmons, a former deputy sheriff and familiar with the bookkeeping duties of the office, to train his daughter for a couple of months in the routine of the office so that she can handle that end of the business.

Other deputies who will be with Mr. Deatherage will be Richard O. Mohrly, of the Union City section, and his son, Franklin Deatherage. Sheriff Deatherage was in Berea recently and named a committee of citizens at Berea who sincerely want to see the laws enforced, to pick a good man to act as his deputy there. At a meeting of the committee Monday, Mr. Ben Davis was recommended as deputy for that community and it is the opinion of the majority of its citizens that this selection was well made. Mr. Davis is a man who believes in enforcing law and order. The members of the committee who recommended Mr. Davis are composed of Messrs. E. O. Clark, Marshall Vaughn, Edgar Scrivner, R. L. Allen, John Gay and Mrs. Dr. Voss.

Mr. Deatherage was sworn as Sheriff by County Clerk J. W. Manning last week, and assume his duties Monday. He has furnished bond in the sum of \$80,000 as required by law, with a surety company signing the bond. "Brother" Turley, new county clerk, has also made his bond of \$5,000 with a surety company. Luther Todd, new circuit clerk, gave bond in the sum of \$2,500 with Messrs. M. M. Broughton and N. G. Todd as sureties.

All of the new county officers take charge of their offices Monday.

Oriental Women Awakening

Chicago, Dec. 30—A desire for women's higher education is now sweeping over the Orient; the girls of India, China and Japan are looking for a better preparation for life, according to Mrs. Mary Frame, of Yenching college, Peking, who has just completed a tour of the United States in the interest of better education for women in the Orient. Within the past few years, seven colleges for women have opened their beginning in the Far East, according to Mrs. Frame. Five of them are arts colleges, and two medical, she states.

BIG MOONSHINE RAID IN WHITLEY COUNTY

By Associated Press

Lexington, Ky., Dec. 30—Six moonshine stills, several thousand gallons of beer and large quantities of distilling supplies, several gallons of moonshine whiskey, four men and one woman arrested and warrants issued for others was the result of a series of raids by federal prohibition agents in Whitley county, according to official reports today to the State prohibition officer here. Prohibition Agent John T. Buckner at London, said those arrested included James and Warren Prewitt, G. D. Brown, John Walden and Mrs. Mary Inman.

Get \$22,500 Rain Insurance On Centre Game In California
(By Associated Press)

San Francisco, Calif., Dec. 30—Promoters of the recent Centre College-Arizona football game in San Diego, will be paid \$23,000 insurance because more than one-tenth of an inch of rain fell that day. The sum represents the difference between the gate receipts of \$2,000 and \$25,000 for which the game was insured, according to a local firm which placed the insurance.

Strike Situation In Newport Satisfactory, Says Dehart
(By Associated Press)

Newport, Ky., Dec. 30—Col. H. H. Dehart, commander of the Kentucky guardsmen on duty at the Newport Rolling Mills, stated he is satisfied with the situation in the strike area, and does not anticipate further trouble.

Breaks Flying Record

Mineola, N. Y., Dec. 30—A Larsen monoplane, piloted by Edward Stinson, which broke the world's continuous flying record of 24 hours 19 minutes and seven seconds, descended shortly before noon after having been in the air 26 hours, 19 minutes and 35 seconds. He could have flown in 24 hours except for faulty oil connections.

Auxiliary Craft Question Settled
(By Associated Press)

Washington, Dec. 30—The American proposal to limit naval auxiliary craft to a maximum of 10,000 tons displacement was understood virtually agreed upon today by the Arms Conference. All powers accepted the proposal except France, whose delegates, while holding their formal approval in abeyance, said such approval is expected. Also, all agreed to limit guns on auxiliary craft to eight inches.

New Office Created

Youngstown, Ohio, Dec. 30—Mayor elect George D. Bles announced today that he would appoint a "breath inspector" on the police force when he assumes office January 1st. He said the "inspector" would sniff at all policemen every four hours and that seems of gloves, winter-green or peppermint would result in placing a black mark against the record of the offending officer. It was advanced yesterday as a joke, and today Ohio adopted the idea.

Oklahoma Banker Killed By Unknown Assailant

Mustang, Okla., Dec. 30—E. W. Brindley, 35, president of the Mustang State Bank, was called from home into the yard last night and shot and killed by an unknown assailant.

Russia To Buy American Grain
(By Associated Press)

London, Dec. 30—An agreement whereby Soviet Russia will turn over to the American Relief Administration \$10,000,000 in gold to purchase grain in the United States for famine relief in the Volga region, was signed here today by representatives of American and Soviet governments.

CUT MAY BE MADE IN MAIL DELIVERY

Berea and Stanford Among Offices Affected By Proposed Curtailment

Washington, Dec. 30—Village delivery service is frowned upon by the Postoffice Department, and if the recommendations of Postmaster General Hays are carried out by Congress, the mail delivery at 749 villages in the United States will be abolished, while the hoped-for delivery service will be denied the 10,486 offices of the third class, which feel entitled to receive such service. In his last annual report to Congress, the Postmaster General recommends that this service be abolished.

Village delivery service is now maintained at 21 post-offices in Kentucky, as follows: Berea, Carlisle, Carrollton, Clinton, Corbin, Dawson Springs, Eminence, Falmouth, Greenville, Franklin, Lagrange, Lawrenceburg, Morganfield, Murray, Pikeville, Providence, Stanford, Sturgis, Walton and Williamstown.

"In view of the small size of these towns, and the present postal conditions," said Postmaster General Hays, in his annual report, "it is believed that the expenditure of public funds is not warranted by the benefits received."

MOVIE PRODUCTIONS DURING NEW YEAR

The Phoenix Amusement Co., of which Miss Ward is a director and manager of the local houses, have made arrangements to give their patrons a splendid program of pictures during the year 1922. Contracts have been made with the First National Picture Corporation to furnish all their best releases for the picture houses owned by the Phoenix Amusement Company. The highest salaries in motion pictures are lined up with the First National, and while the expense will run considerably higher for programs next year, the admission price will not be raised. Bookings for next year include such splendid pictures as Four Horsemen of the Apocalypse, Way Down East, Three Musketeers, The Affairs of Anatol, Over the Hill, Camille, The Last of the Mohicans, Passion, and many other photoplays which are scoring a success in the larger cities.

The Phoenix Amusement Company is to be congratulated upon their efforts in bringing such splendid attractions to the smaller cities, and the movie fans should encourage them in their endeavor.

DIDN'T WASTE MONEY ON FOOD

"The recent campaign against wastefulness of eating did not affect me much as I haven't been able to eat anything but toast and tea for the past five years. Even that would create gas and cause me distress. My weight was down to 84 pounds and my complexion muddy. I had frequent pains in the region of my appendix. I am glad I did not listen to an operation as Mayr's Wonderful Remedy has made a new woman of me." It is a simple, harmless preparation that removes the catarrhal mucus from intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. H. L. Perry & Son and druggists everywhere. 309 1

RICHMOND BANKS MAKE IMPROVEMENT

Cashier R. E. Turley, of the State Bank and Trust Company, is being commended very highly by patrons of this splendid banking institution for the improvements made in the interior of the bank building recently. Contracts were let to the Schachne Studio, of Dayton, Ohio, and under the supervision of Messrs. Carl V. Peterson, Wm. Crumley, and Anton Beyer, expert decorators, the bank has taken on an appearance which does credit to these men who are artists in their particular line. The walls were done in the cane-stone finish, and the woodwork made to harmonize with the walls and ceiling. The directors' room was finished in antique leather effect, and is a thing of beauty. The vault doors and radiators were finished in old Roman gold, and the gas fixtures have been supplanted with beautiful electrical effects. Such improvements give Richmond another bank which compares favorably with institutions of even larger cities. Mr. Turley has also installed four coupon booths for the convenience of his patrons, which is one of the latest improvements among banking institutions.

Richmond bankers intend to have the very best facilities possible. Cashier R. M. Rowland, has had the old Southern National Bank furniture removed and replaced with beautiful bronze grill which is a thing of beauty. New marble floors have been laid, and the woodwork has all been done over, and gives an appearance of a flourishing banking institution which the Southern Bank has enjoyed since its charter here. Mr. Rowland is a wide-awake business man and has a lot of friends.

The contract for the improvements at the Southern National Bank were let to the Bank Improvement Company of St. Louis, and the work was in charge of Mr. C. M. Reinwald, who is acknowledged as a master in his line. All four banks of Richmond are known all over the state for their splendid personality of the men connected with them and the directors are giving to the people of Madison county a banking service unsurpassed anywhere in the country.

Under the bill, \$16,000 is appropriated for each state which accepts the law and provision is made by the federal government to equal state or county and be appropriated by the states. This means that \$16,000 is available for the establishment of the law in Kentucky, Mr. McCormick said, and that a dollar may be had for every dollar appropriated by the state legislature at its session opening next Monday.

MISS CELIA DOZIER DIES AT HOME IN COUNTY

Friend's were deeply grieved early Friday morning to learn of the death of Miss Celia Dozier at her home near Union City. She was stricken with paralysis at 3 a. m. and never rallied or regained consciousness. She was beloved by everybody in the community. She is survived by her mother, Mrs. Nancy Dozier, and two sisters. Funeral services will take place at her home Saturday morning at 11 o'clock, interment in the family burying ground.

French Girls Admit Spinsterhood at 25

Paris, France, Dec. 30—St. Catherine's Day is the day when all young French girls who have attained the age of 25 without finding a husband, put on the banner of spinsterhood, although this does not necessarily mean that they furtively abandon all hope of finding a suitable mate.

Should Be Quarantined

Many physicians believe that anyone who has a bad cold should be completely isolated to prevent other members of the family and associates from contracting the disease, as colds are about as catching as measles. One thing sure—th sooner one rid's himself of a cold the less the danger, and you will look a good while before you find a better medicine than Chamberlain's Cough Remedy to aid you in curing a cold. de

KENTUCKY EDITORS MEET IN LEXINGTON

And Pledge Support of U. of K.—Welcomed By Dr. Frank L. McVey

Lexington, Ky., Dec. 30—The Kentucky Press Association, at a banquet given in its honor at Dickson Hall, on the University of Kentucky campus, last night, in the unanimous passage of a motion submitted by B. F. Forgy, of Ashland, pledged the support of the press of Kentucky to the University of Kentucky in an effort to establish a State University commensurate with the needs of the state. The first meeting of the two-day session was held Thursday afternoon at the Phoenix Hotel.

Mr. Forgy, editor of the Ashland Independent, was a member of the educational commission which made a survey of the state universities located in Kentucky and sister states last spring. "Our university does not compare with other similar institutions in equipment and means," he said last night, urging the editors of the state to support Dr. Frank L. McVey in his efforts to establish a state university which will adequately meet the educational demands of Kentucky.

Prof. Enoch Graham, head of the department of journalism, University of Kentucky, presided as toastmaster. President Frank L. McVey was the first speaker introduced.

Dr. McVey welcomed the newspaper men to the campus and spoke briefly on "Some of Kentucky's Problems." The outstanding problems pressing for solution are those of the development of Kentucky's natural resources, building of roads, and the problem of taxation, he said.

BUREAU OF CHILD HYGIENE FOR STATE

Dec. 30—Room Congress of the State Health Officers, Kentucky, to establish a highly efficient Bureau of Child Hygiene at exactly half the amount such a bureau ordinarily would cost, according to Dr. A. T. McCormick, state health officer. It would, he declared, materially decrease the death rate among women and children from preventable diseases.

Under the bill, \$16,000 is appropriated for each state which accepts the law and provision is made by the federal government to equal state or county and be appropriated by the states. This means that \$16,000 is available for the establishment of the law in Kentucky, Mr. McCormick said, and that a dollar may be had for every dollar appropriated by the state legislature at its session opening next Monday.

What A Grain of Wheat Does

Valadolid, Spain, Dec. 30—An experiment to show the fecundity of a grain of wheat has just been concluded at the Official School of Agriculture here with the result that one grain produced in a year 322,000 grains. At the end of July 100 grains were sown separately. At the end of September the grains had developed an average of 12 shoots each. These were cut and transplanted and by the end of October each cutting furnished an average of eight shoots, which produced 65 ears each, and each ear gave an average of 50 grains. A simple multiplication shows that each of the original grains planted reproduced itself 12 by 6 by 65 by 50, making a total of 322,000 grains.

MISS MONDAY GETS DESERVED PROMOTION

Popular Federal Clerk Transferred To Court With Biggest Docket In the District

"The best deputy federal clerk in the state," is what many officials say of Miss Sara Monday, who has gone to Catlettsburg to take charge of the work there. Incidentally her superiors must have some sort of the same idea about her for the Catlettsburg court is said to be the biggest federal court in the Eastern district of Kentucky, and Miss Monday will have a lot of new work to do that she has had here in Richmond.

Miss Monday came here something over a year ago and made good right off the jump. Her home was in Frankfort when she got her experience under U. S. Commissioner Ward. She and her mother made many warm friends here who are regretted to see them leave, but are glad of the deserved promotion that Miss Monday will be succeeded here by Miss Paralee W. Jones, of Lexington, who will take charge of the local federal office for first of the new year.

PRESIDENT HUTCHINS TELLS OF BEREA'S WORK

President William J. Hutchins, made an address in Paris the other day before the Commercial Club which is reported by a correspondent there as follows:

"The last way to perpetuate poverty and ignorance in this country for the next two hundred years is to neglect and Christianize the measurements of the South and Appalachians. President William J. Hutchins, of Berea College, delivered an address before the Paris Commercial Club at a dinner held at the Mammoth garage last night.

Dr. Hutchins described the work that is being done at Berea College toward educating the mountain people, many of whom do not read the school work, until they are over twenty years old. He said that many people taking work in the third and fourth grades of the school are men with mothers or four to six children.

Berea is one of the few colleges in America in which one must first be a first grade in school before one can continue on to the second grade. Dr. Hutchins said the Hutchins brought with him a number of girl singers.

FIGURES KY. OIL WILL DISAPPEAR IN 1980

Frankfort, Ky., Dec. 29—Kentucky oil production, which between the years 1915 and 1919 rose precipitately from 437,274 barrels a year to 9,226,473 barrels, will gradually decline until 1980 when it will virtually disappear, unless new and unknown pools are discovered, according to estimates made public here by Dr. Willard Rense Jilison, director of the Kentucky Geological Survey. Dr. Jilison estimates that between the present and 1980 the state's known pools will produce 94,963,000 barrels or more than twice as much as the total production between 1883, when first available records were kept, and 1921. The recorded production up to the present time has been 44,355,300 barrels.

Records compiled by Dr. Jilison and forwarded to the Geological Survey show that the first recorded production of oil, in 1883, was 5,568. This increased to 62,259 barrels in 1900 and 1,217,337 in 1905. In 1905 a decline began which brought production in 1910 down to 468,744 barrels and in 1915 to 437,274 barrels. In 1916, however, the Big Sinking field was discovered and production shot up to 1,444,730 barrels; 3,088,160 in 1917; 4,035,950 in 1918, and to 9,226,473 in 1919. In 1920 production dropped to 8,546,027 but again increased in 1921 to 8,781,000 barrels (estimated).

THIN, FLAT HAIR

GROWS LONG, THICK
AND ABUNDANT

"Dan'sine" costs only 45 cents a bottle. One application ends all dandruff, stops itching and falling hair, and in a few moments, you have doubled the beauty of your hair. It will appear a mass of soft, lustrous and easy to do up. But what will please you most will be after a few weeks' use, when you see new hair—fine and curly—growing all over the scalp. "Dan'sine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, falling, faded hair to grow long, thick, heavy and luxuriant.

WHEN EVERY MOVE HURTS

Lame every morning, ache and stiff all day, worse when it's damp or chilly? Suspect your kidneys and try the remedy your neighbors use. Ask your neighbors.

Mrs. Carrie Long, 140 Tate's Creek avenue, Richmond, says: "A few years ago I was down with kidney trouble and for two months I suffered so I couldn't straighten my back or turn over in bed I was so helpless. Every time I moved the pain was so severe I would scream. My limbs and joints were stiff and swollen I had dizzy, swimming sensation in my head and objects flashed before my eyes. My kidneys acted irregularly and although I tried all sorts of remedies I was not benefited until I was finally told of Doan's Kidney Pills by a friend. Doan's soon cured me of all signs of the trouble and I was able to do my work. My back was well and strong." (Statement given November 20, 1916.)

On March 1, 1921, Mrs. Long added: "It has been a long time since I have needed Doan's Kidney Pills. Should I ever again need a kidney remedy I would certainly take Doan's." 60c at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y. dec 16 23 30

Does More For Less

THAT the Ford One-ton truck does more for the farmer or the merchant is proved by the great number of them now in daily use—that it does this at less cost is shown by the actual figures—a smaller first cost and a much lower expense for operation and upkeep.

The Ford One-ton Truck has proved a great money earner, as well as a labor saver. It has solved the problems of economic transportation between the farm and the city.

The Ford One-ton truck has all the merits of the Ford car, with added strength for greater capacity. The worm drive of aluminum bronze gives unusual and positive power at a very low cost.

Come in and let us show you how the Ford One-ton Truck will help you and save you money in your work.

IMPORTANT

We are prepared to furnish the Ford Truck equipped either with Standard or Special Gearing. The Standard Gearing gives the truck a maximum of power. The Special Gearing increases the speed of the truck from five to seven miles an hour, converting it into a Fast Delivery Car.

"THE FOUR HORSEMEN OF THE APOCALYPSE"

Greatest Picture of Year Coming To Opera House Next Wednesday and Thursday

The vision of the Four Horsemen seen through mists, galloping across the skyline, lays a spell upon the audience. The fascination of the conflicting themes and the beauty of the acting would alone make this picture memorable. But when to that are added its dramatic structure, its vast range of emotions and its tremendous dynamic sweep, it becomes something greater than any other picture ever made. It is indeed a triumphant epic of the silver screen.

"The Four Horsemen of the Apocalypse," the screen visualization of Vincente Blaseo Banez's widely read story, of which much has been written and many lively expectations have been aroused, will be presented at the Opera House for a limited engagement of two days beginning next Wednesday matinee at 2:15 and night at 8:15. The seat sale opens Saturday. All seats reserved.

This screen masterpiece at the present time is the sensation of Cleveland, where it has drawn the close attention of the critics who have pronounced it the greatest of all motion picture production, and has absorbed the interest of the public. It is a creation that has never been equalled on the screen, all other productions of the massive and descriptive kind piling into insignificance by comparison.

"The Four Horsemen," as the title suggests, must deal with war, for the motive is destruction of life and wealth by the "Four Terrible Riders" typifying Conquest, War, Famine, or Pestilence, and Death. But war after all is only the dramatic background for the development of the psychology of three races of people, Spanish, French and German.

An augmented orchestra conducted by Mr. R. Haskins and Miss Josephine Forsythe the soprano soloist, are added attractions.

KELLEY FEELS FINE TO HIS FINGER TIPS

Covington Man Works Better Than In Years and Is Full of Life and Energy

"When I saw what Tanlac had done for my wife I began taking a few doses out of her bottle, and it helped me so much I got a bottle of my own and before I had finished it I was feeling like a different man," said G. M. Kelley, 420 Highland Street, Covington, Va., employee of the West Virginia Pulp and Paper Company. "I had no appetite, and was taking nothing but a cup of coffee for breakfast and very little at other meals."

"Now I have a corking appetite, and instead of being bothered with indigestion as I used to be, my stomach is as sound as a dollar. I can work better, too, than in years and feel just brimful of life and energy all the time. In fact, Tanlac has made me feel good to my finger tips."

Tanlac is sold in Richmond by Stockton and Son and leading druggists.
